Arguments to help you secure your spot

Our department's budget is too tight.

Your response:

The EAIE Conference is a one-stop shop that eliminates the need to attend multiple conferences each year. Four days of attendance can save me 4-5 business trips this year. Plus, the sooner I register, the better the fee pricing and the more hotel and travel options I will have access to.

Why is the EAIE Conference different from other conferences?

Your response:

The EAIE Conference is a key moment in the year for every international education professional. It is the place to meet and make lasting partnerships with participants from 100+ countries. It combines inspiration and networking with knowledge sharing, thanks to a high-quality programme covering global topics. It would be to our disadvantage as an institution to miss out.

How can we ensure a return on our investment?

Your response:

I will set clear goals for what I want to bring back in terms of leads, learning and tools. I will also share this and the resources gathered with the team.

What costs are already covered by the EAIE Conference registration fee?

Your response:

Included in the fee are access to all sessions and Exhibition Hall, a free public transport card, coffee and tea on all days and two vegetarian lunches and one themed luncheon.
