

CAMPUS SHOWCASE 03

University
of Dundee

03 – University of Dundee

Join us and discover why the University of Dundee is one of the UK's most dynamic and future-focused institutions. Our team will be ready to welcome you and share how Dundee combines academic excellence with an outstanding student experience. Whether you're interested in building new partnerships, exploring opportunities for collaboration, or simply learning more about what makes our university distinctive, our staff will be on hand throughout the event to answer your questions and offer tailored insights.

You'll have the chance to hear about our world-leading research, our commitment to transforming lives locally and globally, and the supportive, inclusive community that defines the Dundee experience. Unique among UK universities, Dundee is a UNESCO City of Design and home to the V&A Dundee, reflecting a deep civic partnership between culture, creativity and higher education; our strong focus on life sciences and translational research means academic discovery here often moves quickly into real-world impact and industry collaboration. We look forward to meeting you in Glasgow and inviting you to discover why Dundee continues to be recognised for innovation, collaboration and a student-centred approach that sets us apart.

About the institution

The University of Dundee blends an excellent student experience with a strong research portfolio. Founded in 1881, Dundee is known for its strengths in life sciences, medicine, digital and design innovation, and the creative industries. As Scotland's only UNESCO City of Design and neighbour to V&A Dundee, the university's work is shaped by close cultural and civic connections that enrich teaching and research. Our interdisciplinary, student-centred approach emphasises practical impact, helping ideas move from the lab and studio into real-world settings. Visit our stand to meet staff, ask questions and discover the distinctive people and projects that define Dundee.
