EVEN WAR HAS RULES

Many decades ago, the international community decided to stop large-scale deaths of civilians during wars and armed conflicts. Thus the rules of war were created, which forbade the killing of civilians, the infliction of harm and torture on prisoners, and the launching of lethal weapons into unprotected settlements.

Despite the fact that the rules of war are set out in international treaties such as the Geneva Conventions, the Rome Statute, and other international laws and agreements, many of which Russia is a signatory to.
Ukraine is defending…

- **All Ukraine is under attack every day and night!!!**
- Cities, towns, villages, homes, critical infrastructures are destroyed and damaged!
- Ukrainian cities/villages in the East and South are under brutal invasion!!!
- E.g. Mykolayiv – city in the south of Ukraine was NOT bombarded only 29 days....
- Over 1000 hospitals and 500 cultural heritage centers are damaged/destroyed
- Travel/Evacuation within Ukraine/out of Ukraine – not safe and limited

- Access of the students to institutions – limited/absent

Small but brave girl is singing the Ukrainian Anthem during the medical care at the hospital after the missile targeted at her home in Mykolayiv!!!

Stand Up for Ukraine!

- Ukrainians are defending the identity, values and humanity strongly, protesting in front of tanks and guns in the cities under invasion vs russians benefiting form the opportunities abroad!!!
- 280 rectors of universities in the russian federation signed a letter in support of the russian aggression against Ukraine!!!
- Majority of this HEIs benefited from EU’s Programmes!
- russians who behaved unhuman torturing Ukrainians, raping and killing women and kids were educated in the period of Bologna Process implementation in russia and active support of EU to russian universities, staff, students and young people!!!

Every day Ukrainian youth, students and staff are dying defending Ukraine and Europe with bravery instead of enjoying life, studying, living and Erasmusing!
They haven’t chosen military profession they choose freedom and dignity – video!!!

*Without any prejudice to the nationality issues!!!
Sanctions - #Erasmuswithoutrussia – at the link
Erasmus+ projects with russia and belarus are terminated!
The cooperation with organisations funded by the state budget is NOT eligible
The individual opportunities for russians/belorusions* are still eligible if applicable.
Based on its Academic/organisational Freedom it is up to the Erasmus Universities
and other organisations on how to apply it, at least ask the attitude to the war when they arrive...
Please do the right choice – choose people from Ukraine, we are defending the future of Europe!
Stop recognition of russian diplomas, they are not in Bologna Process any more!
PLEASE DO NOT provide similarities via joint support platforms for Ukrainians, Russians, and Belarusians: do not equal those suffering from a bloody war with those whose governments directly support war and terrorism – ‘victims of war’ ≠ ‘victims of totalitarian regime’.
Ukrainians are not refugees – not refused by our country... but temporary relocated/under protection.

*Without any prejudice to the nationalities issues!!!

Challenges for cooperation under Mobility Projects

- To find contact information of the HEIs for mobility/ cooperation
- Force Majeure Circumstances: suspend or continue with redesigning
- Staff safety, activities delays, changes, workplan/ activities etc.
- Institutional regulation for Mobility does not reflect the war time: not ready for flexibility
- Recognition by the EU universities of prior study or belonging to the university without the documents which were lost/destroyed during war/ recognition for mobility periods
- Study/Traineeship for 1\textsuperscript{st} year students, 4\textsuperscript{th} year students longer semester
- Teaching, Training, Job shadowing for staff (institutional impact)
- Delays with documents for permission to staff, researchers and students mobility
- Delays with support letters from the Ministry of Education and Science of Ukraine for crossing the border for specific categories of students and staff
- Passport, visa and crossing the border
- Temporary protection status vs students visa etc.

**Inter-Institutional Agreement is a must to have for mobility and recognition!!!**

How to cope with challenges under Mobility Projects

To apply flexibility within Ukrainian HEIs:
- update for the Internal Regulations on the International Cooperation/Mobility is required
- Nomination vs selection – procedures update, if needed
- Signatures of Interinstitutional Agreements is a must for mobility and recognition
- Communication and explanation to the Erasmus+ partners the institutional regulations and recognition mechanisms etc.
- Contacts with students and staff
- Institutional impact, reporting etc.

Regulation of the Cabinet of Ministers on the Right for Mobility (May 13, 2022) – UPDATED!
The male students and staff 18-60 years old are **not allowed to cross the border** with some exceptions!!!

- University students are exempt from mobilization for the study period!!!
- However it does not provide automatic permission for the border crossing!!!
- The final decision is taken by the Border Control Officer based on the provided documents.

**The documents package include:**

- Enrolment/Admission/ Acceptance for Students; Invitation letter for staff; Students card or students visa
- Additionally: Mobility Agreement, Inter-Institutional Agreements, Nomination letter, Student’s Card, Health Insurance Certificate, UA University support letter and MoESU letter etc, depending on the type of mobility.
- Certificate from the Military Service Center of Ukraine is obligatory document in the package of documents for the crossing the border

**Crossing border by male students and staff during Martial Law is regulated by the Decree of the President of Ukraine of 24.02.2022 № 64/2022 „On the imposition of martial law in Ukraine“. The Cabinet of Ministers of Ukraine Regulation № 264 dated as of 12/03/2022 (https://zakon.rada.gov.ua/laws/show/264-2022-%D0%BF#Text) State Border Service of Ukraine website link; MoES Ukraine explanation – here**

Please consider the risks of the delay of arrival or cancelation!!! Discuss possible solutions: the blended format or postpone of the mobility for such students/staff/ youth, if possible or give preference to female!

18 Erasmus Mundus students are facing challenges to cross the border

Ukrainian home university is recommended to apply **to the MoES Ukraine for the support letter to the State Border Guard Service of Ukraine!!!**

Eligible activities: The activities have to take place at the beneficiary HEI. In cases when, due to the war, the sending organisation cannot be involved in the activity, the beneficiary HEI is the only HEI involved in the organisation of the mobility, except for traineeships outside of the HEI.

Recommendations:

- Students/learners/staff could contact and apply to Institution/organisation directly in EU!
- The Ukrainian students/learners/staff must contact their home institution in order to conclude the formalities and receive the nomination!
- It is required for of mobility and outcomes recognition
- Support to staff to teach for home institution!
- Encourage students/learners to study in parallel at their home institution online – help them!
- Buddy system, ESN support would be real help to adapt faster!
- The Certificate with learning outcomes will be helpful for staff/students/learners/youth for recognition!

Erasmus+ will support the development of digital skills, in line with the Digital Education Action Plan. It will provide high-quality digital training and exchanges, and it will encourage traineeships in the digital sector. New formats, such as blended intensive programmes, will allow short-term physical mobility abroad to be complemented with online learning and teamwork. The implementation will be further digitalised and simplified with the European Student Card.

**EU Youth Strategy**

The EU developed an EU Youth Strategy and wants young people to engage and become an active citizen involved in democracy and society. We want young people to tell us what is important to them by taking part in the EU Youth Dialogue.
Overarching policy priorities at EU level

The European Education Area by 2025
Four key objectives

1. **Strengthen the European dimension in higher education and research**
   - Bringing transnational cooperation to a higher level contributes to a culture of excellence and inclusion, a true European identity, and global competitiveness and attractiveness.

2. **Consolidate universities as lighthouses of our European way of life**
   - **Strengthen quality and relevance for future-proof skills**
     - In a fast-changing environment, universities need to strengthen their capacities to equip young people, lifelong learners and researchers with the right competences and skills.
   - **Foster diversity, inclusiveness and gender equality**
     - More institutional changes are needed for universities to become places of truly equal opportunities.
   - **Promote and protect European democratic values**
     - Universities need to be places of freedom: for speech, thought, learning, research.

3. **Empower universities as key actors of change in the twin green and digital transitions**
   - **Develop skills, competences and technological innovation for the green and digital transition**
     - Universities are key actors for the green transition and for a more sustainable world. We need to make ‘connected universities’ a reality.

4. **Reinforce universities as drivers of Europe’s global role and leadership**
   - Universities are instrumental in building Europe’s connections with the world.

Priority areas for transformation based on clear objectives:
- Concrete actions at EU level to empower and support the sector
- Synergies with actions and national reforms

Strengthening the education digital environment for Ukraine

Under this Strand 3, this action will also support a Structural reform project aimed at the creation of an open education digital environment to offer quality higher education for students enrolled in Ukrainian Higher Education Institutions, in particular for those fleeing from Ukraine or internally displaced students - as well as educational opportunities for the wide Ukrainian community abroad - based on cooperation between Ukrainian and other European universities. Such a digital environment would also support exchanges and cooperation with academic staff.

The expected goal of this project is to:

- support the development of a high-performing digital education ecosystem of Ukrainian universities, thus guaranteeing the continuation of their activities, as well as their performance during and after the conflict;
- support the digitalisation of teaching and learning methods and the provision of infrastructure required for online and inclusive learning, also in line with the general goals of the Digital Education Action Plan 2021-2027.

More specifically, through this project a network of Ukrainian higher education institutions will be given the opportunity to set up a joint multi-institutional online platform which would also inter-connect existing digital education platforms. European education institutions experienced in distance and online learning may also provide support for setting up and running the joint platform.

This platform would bring together digital online courses and other relevant content taught at the Ukrainian universities before the war and updated according to the project quality standards. The platform could also allow for course management, registration, authentication of students, repository of learning materials, online exams and assessment etc. The main targets of the platform would be those HEIs that irrevocably or partly lost their infrastructure with academic staff and their students relocated to other regions of Ukraine or abroad, although it may also support other Ukrainian HEIs and their students.
