17-20 SEPTEMBER

Toulouse Campus Experience: Life, agriculture and veterinary science and education in Toulouse

The Life, agriculture and veterinary science and education in Toulouse Campus Experience is a unique opportunity to discover the exceptional richness of Toulouse education institutes in the field of agriculture and veterinary science.

The day will begin with a French breakfast followed by a visit to the educational farm of Lamothe. Participants will then discover the programmes offered by École d'Ingénieurs de PURPAN and École Nationale Vétérinaire de Toulouse. After lunch and a networking session with the different international coordinators, participants will be transferred to the Auzeville-Tolosane Agrobiopôle campus.

A presentation of École Nationale Supérieure Agronomique de Toulouse and École Nationale Supérieure de Formation de l'Enseignement Agricole programs will be given.

To end the day, participants will dig their hands into wine barrels and be initiated into the process of wine making, just before tasting some representative samples of the Toulouse area.

About the institution

The Toulouse area is remarkable for the diversity of its actors in agriculture, veterinary science and education. With a total of 3700 students, École d'Ingénieurs de PURPAN, École Nationale Supérieure Agronomique de Toulouse, École Nationale Vétérinaire de Toulouse and École Nationale Supérieure de Formation de l'Enseignement Agricole offer a large number of leading programs at undergraduate, graduate and postgraduate levels: AgroBachelor, Professional Bachelors engineering degrees, Veterinary diploma, Masters, Oenology diploma, PhD, veterinary doctorate. These programmes are

completed by numerous continuing education actions and well-established research activities in the different fields of life, agriculture, veterinary science and education science.
