

EAIE | HELSINKI

24-27 SEPTEMBER

Schedule

Your guide to where and when in Helsinki. Download the EAIE Events App or visit our website for full descriptions of conference activities and more.

The first part of the document discusses the importance of maintaining accurate records of all transactions and activities. It emphasizes that proper record-keeping is essential for ensuring transparency and accountability in financial operations. This section also outlines the various methods and tools used to collect and analyze data, highlighting the role of technology in streamlining these processes.

The second part of the document focuses on the implementation of internal controls and risk management strategies. It details how these measures are designed to prevent fraud, reduce errors, and protect the organization's assets. The text provides a comprehensive overview of the different types of risks faced by the organization and the specific controls put in place to mitigate them.

The third part of the document addresses the financial reporting and budgeting process. It explains how financial statements are prepared and how they are used to evaluate the organization's performance. This section also discusses the development of the budget and how it is used to allocate resources and track progress against financial goals.

The fourth part of the document covers the audit and compliance functions. It describes the role of internal and external auditors in verifying the accuracy of financial information and ensuring that the organization is in compliance with applicable laws and regulations. The text also discusses the importance of maintaining a strong ethical culture and the role of the compliance department in promoting this culture.

The fifth and final part of the document provides a summary of the key findings and recommendations. It highlights the areas where the organization is performing well and identifies the areas that need further attention. The recommendations are designed to help the organization improve its financial management practices and achieve its long-term strategic objectives.

EAIE | HELSINKI

24-27 SEPTEMBER

Exhibitors A to Z

The definitive guide to higher education institutions and service providers exhibiting at this year's conference. See the included floor plan to quickly find your way to the exhibitors that pique your interest.

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry, no matter how small, should be recorded to ensure the integrity of the financial data. This includes not only sales and purchases but also expenses, income, and any other financial activities. The document provides a detailed list of items that should be tracked, such as dates, amounts, and descriptions of each transaction. It also outlines the proper format for recording these entries, ensuring that they are clear, concise, and easy to read.

The second part of the document focuses on the process of reconciling the records. It explains how to compare the recorded transactions against the actual bank statements and other financial documents to identify any discrepancies. This process is crucial for detecting errors, such as double entries or missing transactions, and for ensuring that the records are accurate and up-to-date. The document provides step-by-step instructions on how to perform a reconciliation, including how to identify and investigate any differences between the recorded and actual figures.

The third part of the document discusses the importance of regular backups of the records. It explains that keeping multiple copies of the data is essential for protecting it from loss or damage. The document provides information on how to create and store backups, as well as how to verify that they are working correctly. It also discusses the importance of keeping the records secure and accessible, and provides tips on how to do this effectively.

The final part of the document provides a summary of the key points discussed and offers some final thoughts on the importance of maintaining accurate records. It emphasizes that good record-keeping is essential for the success of any business or organization, and that it is a skill that should be practiced regularly and carefully. The document concludes with a list of resources and references for further information on record-keeping and financial management.
