### **About the institution**

Champollion University has rapidly established itself as a prominent player in higher education and research. Its compelling model, which is locally anchored but with a global outlook, rests on core values: offering multidisciplinary programs from bachelor's to master's degrees, fostering a culture of teaching excellence and innovation, and actively contributing to the generation and dissemination of knowledge through research. With campuses in Albi, Castres, and Rodez, Champollion University provides its 4,000 students with a privileged study environment within a stimulating scientific and intellectual atmosphere. The institution's mission is to cultivate conditions for personal fulfilment and success.
